Neck and Neck. Wallace
Hard Pushed.

(International News Service.)
BIRMINGHAM, May 14.—Official
returns from 65 out of 67 counties in
the state show that Underwood is
leading his two opponents—Weakley
and Musgrove—by a majority of 1,
830 votes. The two counties missing
are Sumpter and Coffee. The second
choice vote will cut no figure, as Under-
wood is leading Musgrove by a
plurality of 10,391 votes. Official re-
turns from all except the two coun-
ties, showing first and second choice
votes, are as follows: Underwood,
55,267-2,164; total 57,431; Musgrove,
54,886-4,731; total 59,617; Weakley,
8,551-17,118; total 25,669.

Official returns from 52 counties
show that J. Thomas Hefflin, although
he failed to receive a majority, is
elected for the short term. His first
choice vote is 35,252, against the
combined total of 54,285 of his op-
ponents. The official returns from
the 52 counties, showing first and sec-
ond choice votes, follows: Hefflin, 35,
252-6,912; total 42,164; White, 23,208-
7,261; total 30,469; O'Neal, 21,789-1,
820; total 23,609; Rushton, 9,468-4,120;
total 13,588.

The fact that former Governor
O'Neal was beaten for second place by
Capt. White caused some surprise.
No accurate forecast can be made
of the result of the race between
John H. Wallace and A. L. Kim-
brough, for commissioner of conserva-
tion, as they are running very close.
Returns from 15 counties show that
E. W. Barrett and W. T. Sanders are
neck and neck for democratic national
committeeman.

FOSTER CONCEDES IT

(International News Service.)
BIRMINGHAM, May 14.—Judge
Henry D. Foster, state campaign man-
ager for Musgrove, Friday morning
conceded the renomination of Under-
wood, after official returns had been
received from all except two counties
of the state. He also stated that no
contest of the votes would be carried
out.

"We concede that Senator Under-
wood has been renominated. In the
face of the odds against us, however,
we consider that his small majority is
in reality a victory for the principles
that we represented. It is our earnest
hope that any bitterness that may
have arisen as the result of the cam-
paign may be speedily wiped out."

**Aycock Is Back

W. H. Aycock, head of the Aycock
company here, has returned from
Dallas, Texas, where he attended the
meeting of the Southern Wholesale
Dry Goods Dealers association.

"The indications are that the pre-
sent prices will hold for some time,
Mr. Aycock stated. "On account of the
delay in farming the prices hardly
will go lower and the tendency is to
prevent further increases whenever
possible."

**DESPERADO DEFIANT
UNTIL SHOT DOWN**

New Orleans Limited Held Up and Looted
By One Man, Who Adopted
New System.

(International News Service.)
CHICAGO, May 14.—A bandit to-
day boarded the mail coach of the Illi-
nois Central Railroad "New Orleans
Limited," rifled the registered pouches
of gold and currency estimated at
\$500,000, packed the loot in a satchel
and escaped.

The bandit instituted a new method
in train robbing. He boarded the
train as a Pullman passenger. Later
he went forward through the train.
Suddenly the door of the mail coach
opened and the bandit walked in smil-
ing. "I am the inspector," he said,
and reached in his pocket as though
to produce credentials. Instead, he
whipped out a revolver and command-
ed the clerks to hold up their hands.
He compelled one of the clerks to tie
the other four, and then tied the one
himself. He selected registered pack-
ages, after unlocking the pouches
with keys taken from the clerks. As
the train pulled into the Sixty-Third
street station at Chicago he leaped
from the coach, vanishing in the
night.

Thirty minutes later policemen en-
countered a man carrying a satchel.
"What have you got there?" one of
the officers asked. The bandit an-
swered by two shots, and then fled.
Policeman Roberts fell to the ground,
shot through the head, and died at the
hospital. Hendrix drew his revolver
and fired at the robber, wounding
him. The bandit fled, leaving a trace
of blood behind him. Detectives
traced him to his apartment at 53rd
street.

"I'll never surrender alive," the bandit
said when called on to surrender.
"I've killed one copper already and
I'll take more to hell with me tonight."
The detectives fired several volleys.
Then Chief Mooney smashed down the
door and led his men in. The wound-
ed bandit was lying in a pool of
blood. As he saw the detective chief
he lifted his revolver. He and chief
Mooney fired simultaneously, and the
career of the bandit was termi-
nated.

(International News Service.)
CHICAGO, May 14.—The bandit
who robbed the New Orleans limited
today and who was slain after-
wards in a battle with the Chicago
police was identified as Horace Wal-
ton, a postal clerk, carrying badge No.
4651. He was 30 years old and is
believed to have come here from St.
Joseph, Mo., recently. It is believed
by the police that Walton, after
leaving his postoffice job, organized
a band and planned train robberies
all over the nation. A woman, described
as "a beautiful blond," and two men
are being hunted.

**KIWANIS MEETS LEGION
WITH CONFIDENCE HIGH**

Large Crowd of Huntsville Ki-
wanians Coming Here for
the Contest.

"Little Joe" Bradley, jovial Hunts-
ville Rotarian, will umpire the Amer-
ican Legion-Kiwanis ball game here
Tuesday afternoon, it was announced
today following receipt of a letter
from Mr. Bradley, accepting the in-
vitation.

A large crowd of Huntsville Kiwan-
ians have announced their intention
to come down and "root" for the suc-
cess of their club.

Tickets to Kiwanis-American Leg-
ion baseball game will be sold Satur-
day by young ladies in Decatur and
Albany.

Tickets will be sold in three dis-
tricts, Bank street, Second Ave., and
Fourth Ave. South, with manager or
managers for each district.

Rival teams in each district consist-
ing of three young ladies each, one
team representing Kiwanis Club and
the other the American Legion, will
compete in selling tickets for prize
of five pound box of candy for the
team turning in the largest sales for
the day.

Three prizes will be given, one for
each district to the successful team.

The Bank street district, or Deca-
tur, will be in charge of two man-
agers, Mrs. Rob. Daniell, with head-
quarters at Beason-Cobb Drug Co., in
charge of the Kiwanis team and Mrs.
Vera Austelle with headquarters at
Nungester Drug Co. in charge of
American Legion team. Assisting
Mrs. Daniell will be following young
ladies: Mrs. Sam Wiles, Mrs. Ben
Bloodworth and Miss Mabel Nesbit.

Mrs. Austelle will have the follow-
ing young ladies on the Legion team:
Mrs. John McGehee, Mrs. Mabel Wil-
liams and Miss Marjorie Rainey.

The Second Avenue District will be
in charge of Mrs. Sam Thompson with
headquarters at Thompson Drug
store. She will head the Kiwanis
team assisted by Mrs. F. P. Tidwell
who will manage the American Leg-
ion team.

Mrs. Thompson has named the fol-
lowing young ladies to sell for the
Kiwanis team: Miss Amanda Price,
Miss Erin Draper and Miss John
Ballard, and the young ladies on the
American Legion team under Mrs.
Tidwell are Miss Inez Teasley, Miss
Roline Teasley and Miss Elinor Har-
rison.

The Fourth Avenue district, with
headquarters at Jack Dillehay's drug
store on that street, will be in charge
of Mrs. Walter Ezell. She will be
assisted by Mrs. F. G. Almon, Am.
Legion. The young ladies for the
Kiwanis team for the 4th Ave. dis-
trict are Miss Marjorie Beard, Miss
Virginia Almon, Miss Telette Buch-
anan and for the American Legion,
Miss Mary Jervis, Miss Christine Al-
mon and Miss Lucy Roberts.

Young ladies on Kiwanis teams will
wear Kiwanis colors of blue and white
on left arm and will have large "K"
pinned on them. American Legion
girls will have on American Legion
colors, red, white and blue and wear,
pinned on, Large "A L" sign.

Tickets will be priced at 50c but
it is hoped that the generous hearted
citizens will bear in mind that all goes
to the Alabama Children's Aid Society
and any amount over 50c will be
gladly accepted and it is expected
that some high prices will be paid.
To the young lady who gets the high-
est purchase price for a single ticket
a special, handsome prize will be
awarded.

**J. H. HILL ELECTED TAX
COLLECTOR OF COUNTY**

Patterson Receives Handsome
Majority in Home County for
Service Commission.

L. B. Musgrove, candidate for the
senate for the long term, received a
plurality over O. W. Underwood of
401 first choice and 584 combined first
and second choice votes in Morgan
county, according to the official count
made by the Democratic executive
committee Thursday afternoon and
completed just before dark. Captain
Frank S. White received a plural-
ity over Thomas J. Hefflin of 570 in first
and second choice ballots. White is
the first senatorial candidate in the
history of the Twin cities to re-
ceive a plurality over his four op-
ponents in each of the six precincts.

Rev. J. H. Hill won out over Hodges
Crow for tax collector in a specta-
cular race which had held the interest
of the entire county for two days.
Hill's combined first and second choice
vote was 117 more than Crow's the of-
ficial count revealed. Roper ran third.

A. G. Patterson, Morgan county
candidate for president of the Ala-
bama Public Service commission, led
all other candidates who had opposi-
tion, receiving a majority of 1838 over
his nearest opponent, Sam P. Ken-
nedy, of Anniston. Brown and Thomas
were the choice of Morgan county for
the supreme court, Miller also receiv-
ing a flattering vote.

Congressman Edward B. Almon,
running without opposition, received
a complimentary vote of 2386.

In the race for delegates from the
eighth congressional district to the
Democratic national convention, R. T.
Simpson, of Florence, received the
largest vote of any of the five candi-
dates, with T. M. Jones, of Decatur,
second. J. E. Pierce, editor of the
Huntsville Times, ran far behind the
others and apparently has been elimi-
nated from the race. Two are to be
chosen with the two runners-up as al-
ternates. The light vote polled by
Jones and Bowles in their home coun-
ty was attributable to the distribu-
tion of marked ballots carrying the
names of Benson and Simpson and
said to have been sent out by prohibi-
tion headquarters in Birmingham.
While this ticket was voted almost
solidly in some circles, many local
men scratched it in favor of the Mor-
gan county candidates for delegate.

Herman O. Troup, of Albany, won
over T. H. Gunn, of Trinity for tax
assessor by a majority of 380.

The official count follows:

**TRADE POSITION OF
ITALY FAVORABLE**

**LOW VALUE OF LIRA, GUARDIAN
SAYS, DOES NOT REFLECT
TRUE ECONOMIC CONDITION.**

(International News Service.)
LONDON, May 14.—The low value
of the Italian lira, now worth about
one-fourth of its pre-war value, does
not reflect the true economic situa-
tion of Italy, according to the finan-
cial editor of the Manchester Guardian,
who states that Italy is in a
better position today than any of her
neighbors.

Exchange rates, as regards Italy,
the Guardian points out, are largely
normal, for very little business is at
present being transacted abroad; and
reflect keenly the "hypersensitive"
state of the international money mar-
ket. And in this respect he points
out that the British pound has ad-
vanced far more than the actual im-
provement in Britain's trade position.
French selling of Italian securities
at Paris has served to further re-
precitate the lira, the Guardian says.

Italy's chief lack today is coal, and
for smelting has to import hard coal
from England and the United States.
Little more than half the pre-war
amount of coal is being purchased ow-
ing to prohibitive cost. Meanwhile,
Italy has increased sevenfold the pre-
war production of lignite, which is be-
ing used for factory fuel. Italy pro-
poses to solve her fuel problem by
development of waterpower and elec-
trification of railways. Italy also
hopes to get coal from Juzo-Slavia,
where coal mining has not been pro-
perly pushed.

The Guardian's inquiry in British
banking circles shows that the Italian
industrial situation is rapidly improv-
ing and that great efforts are being
made to increase exports. One Ital-
ian motor car firm has sold more than
\$15,000,000 worth of automobiles to
the United States and other countries.

The Italian population, as a whole,
is reported to be working hard, and
reports of revolutionary outbreaks
are not regarded seriously by busi-
ness men in touch with Italy.

However, neither Italy's imports
and exports nor income and expendi-
ture yet balance. The recent Italian
loan reached 20 billion lire, or 5 bil-
lions more than the recent French
loan. Italy also has increased taxa-
tion, which is now four times that of
pre-war days.

got a majority over his opponents in
the first choice votes.

VERA CRUZ, May 14.—Revolution-
ary troops under Gen. Gaudelupe Can-
chez and Gen. Freidre that are at-
tacking the Carranza forces near San
Marcos have made gains, driving the
Carranzistas from their positions and
inflicting losses of nearly 3,000, ac-
cording to unconfirmed reports to-
day. The Carranza troops were said
to have been driven from their posi-
tions and are now making stubborn
resistance.

The revolutionary army is attempt-
ing an encircling movement to sur-
round the Carranzistas. The rebels
number 16,000, while Carranza was
said to have 5,000 or 6,000 soldiers.
At revolutionary headquarters it was
said the surrender of the Carranzistas
was expected hourly.

The rebels are so certain of final
victory that they permitted Gen. Can-
dido Aguilar, son-in-law of the for-
mer first chief, to go to the scene of
the San Marcos fighting and confer
with him. Aguilar had been in com-
mand of a detachment of federal
troops that were fighting the revolu-
tionists. Word was received from
Mexico City today that the revolution-
ary headquarters have called a meet-
ing to arrange for the holding of the
presidential elections.

BOLSHIEVISM MAKES FINAL STAND AND IS DEFEATED

Couched in phrases such as "the dictatorship of the proletariat" and "the limitation of citizenship," the American bolsheviks at a recent convention of all brands of socialists tried to get a resolution passed declaring for government in America, equivalent to the soviet misrule in benighted Russia.

Needless to state, the supporters of the resolution hailed from Chicago and that their chief sponsor bore a foreign name. The "red" proposition was voted down, 103 to 33. Thus bolshevism met its death in the house of its friends, so to speak.

It is well that it should have so happened. Real working, busy Americans, who have red blood in their veins and who wish to be busy making a living, rather than quarrelling about the living someone else has made or stolen as the case may be, do not wish to be bothered with the duty of putting the bolshevik out of business, though they can do it and will do it if necessary. Worth while Americans will never submit to the dictatorship of any class. The revolutionary war settled this question when the fathers then enforced their indictment of kingly class by eight bloody years of war. And now or at any time in the future, their children will shoulder arms and destroy any people regardless of who they are or where they come from, who attempt to limit the suffrage rights of free born American citizens.

One of the speakers against the "red" program, after taking a shot at the many imperfections of our government, truly said that in normal times decisions could be had by "honest and fair discussion." This speaker further said that the proletariat dictatorship program would turn a democracy into an absolute autocracy. The sham of the radical leader, who said that the American people were now submitting to a dictatorship, is evidenced when it is recalled that those said to be dictators are the very persons that the people choose to be their representatives. The meaning of all the verbosity and foolish talk of the radical socialists is that at heart they do not believe in representative government or any other kind of government—they are anarchists, pure and simple. Those who style themselves "scientific socialists" do well to disentangle themselves from their associates who seek what they call success, by class power and class force of arms.

THE SIGNIFICANCE OF PATTERSON'S VICTORY

The sweeping triumph of Andrew G. Patterson in his race for president of the public service commission is probably the most notable expression of dissatisfaction with the service furnished by the various public utilities in the history of the state. From the Tennessee line to the Gulf, practically every county rolled up a majority for the Morgan coalition, thereby going on record as condemning the administration of Sam. P. Kennedy, his leading opponent. In some of these counties Patterson was scarcely known at the time that he announced his candidacy, and in none of them, outside of North Alabama was he so well known that his personality entered into the race except to the extent that he is a dynamic campaigner, a fluent speaker and a tireless worker. He won because he was regarded as the most capable of Kennedy's two opponents and because his statement that he would put "service" into the public service commission was accepted at face value.

The tendency of the times is not to "bait" the public utilities. There is, on the other hand, a desire to accord to them all a just return upon their investment. However, the demand for service is more acute today than ever before, and the recognition of the failure of many public utilities to deliver this service is state wide. Too many instances can be recalled where a raise in rates has netted nothing but an increased income for the favored concern. The day has passed when a "public be damned" attitude can be adopted by corporations that would not be in existence had they not been granted franchises and are in practical effect largely mono-

polistic. The Alabama Public Service commission can be made an effective agency for the protection of the rights of the people. The Daily believes that it will really begin to function when Mr. Patterson is inducted into office.

Voice of the People**WHY SUGAR IS HIGH**

Albany-Decatur Daily:

We have read and paid so much for sugar during the past year or two that the average consumer has about given up the idea of ever getting anything better than we now have in quantity and price. Of course, we really feel that all efforts have been in the consumer's favor and since no real benefit has materialized have concluded that the prices and quantities are justifiable. Let's see. On yesterday, a man who has worked in the refining mills of the Great Western Sugar Refineries at Ft. Collins, Col., told the writer that there was in the ware rooms of that great company at Ft. Collins, Col., enough sugar made ready for consumption to supply every family one bag of sugar.

He gave me the sole reason for the high prices and our trouble to secure more than just enough for daily needs, i. e., that the brokers of the country bought the output of the mills in advance, had it shipped to suit their needs to manipulate and that the mills would take your orders but would not guarantee delivery until the orders already in hand were filled. Someone told us that the price was to be only 17 cents at the mills, yet we pay 25 and 28 and as high as 30 cents—and why the difference? Well, one broker purchases at the high mark at the mills, he sells to another broker at 18, who sells to another broker at 19, finally getting back to the original broker at a figure sufficient to make the gamble on one of the most used articles of food on the markets today. The sugar is made but we cannot get it at a price nothing near that of the mills nor can we secure more than they see fit to allow us nor will we see better supplies and a more reasonable price until something is done to offset the brokers. The wholesale men and the merchants are not to blame. The law is, that a man cannot, as I understand it, offer for sale in most states, articles that he is not absolutely making a business of and with that law and the working of some plan to work the sales of our daily needs through channels which eliminate the men who control with money those needs, the public would secure a much better treatment and much of the unrest would be done away with.

Duties of Aid-de-Camp.

An aid-de-camp is an officer attached to the general's staff who assists him in his work; he is an acting assistant adjutant general by reason of his detail as aid. He attends the general, acts practically as his private secretary and may be designated to some special military duty. During our Civil war the aids carried orders and acted in all sorts of useful ways.

Insurance Man Tells of Friend's Recovery

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctors diagnosed his ailment as gall bladder trouble and that an operation was necessary. Some one persuaded him to try Mayr's Wonderful Remedy. Since taking it one year ago he tells me he has been able to eat anything." Milled from Only the Finest Wheat in spite of its scarcity

FIRST-GRADE soft winter wheat is unusually scarce this spring. Adverse conditions and a large demand have cut down the supply on the market. It is nevertheless possible to secure fine wheat, in limited quantities, provided the price is paid.

Valier's Dainty Flour

is milled from such wheat alone by our special slow process. It retains all the exceptional baking qualities found only in such grain.

As a result you can depend on Dainty—its quality is always the same. It continues to produce the same delicious, reliable baking which has distinguished it in the past.

Altho flour of such quality must cost slightly more in the sack, it is economical in the end. The difference is repaid many times before the bottom of the sack is reached by better, more uniform baking, and economy of shortening, for Dainty

Requires Less Lard

Order a sack of Dainty from your grocer today—it is wise economy.

SAYS THE MOUTH GERM INCUBATOR

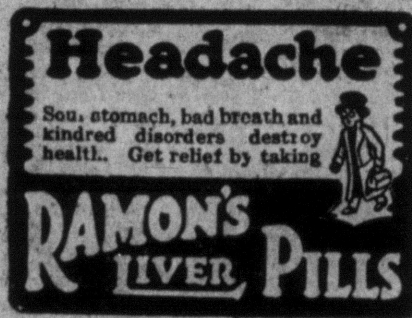

Germ from Air Bred and Multiply Making Acids that Eat Cavities in Teeth; Infect Gums, Causing Pyorrhea; Infection Spreads to Tonsils and Throat From Which Septic Matter Poisons System—Daily Sterilization Recommended.

If you would save your teeth and your general health, make sterilization of your mouth, teeth and throat a regular part of your daily toilet. Such is the advice of Dental Science. We are told that every mouth becomes infected, sooner or later, and that the price of sound teeth and good health is daily sterilization of the mouth, teeth and throat.

For this purpose Dental Science has perfected a most delightful sterilizing solution, called Steroline, which absolutely sterilizes the mouth, teeth and throat, penetrating even the minute crevices between the teeth which cannot be reached in any other way.

Used as a mouth wash and gargle, night and morning, Steroline quickly becomes a most enjoyable and indispensable part of the daily toilet. It imparts a delightful sensation of cleanliness, freshness and comfort to the mouth and throat, purifying and sweetening the breath even of tobacco, preventing pyorrhea or Riggs' Disease, tonsillitis, throat trouble and many other contagions that might otherwise gain entrance to the system through the mouth.

Telephone your druggist now for a bottle of Steroline and begin today to enjoy its delights and protection. A large bottle, enough for the entire family, may be had for half a dollar.—Advertisement.

Obeys Laws of Hair Cleanliness

Science Shows That Grit, Dust, Dirt Cause Dandruff and Step Up the Color Glands. This Produces Scuff, Brittle Hair, Dead Hair, Falling, Thin Hair, Baldness, Gray Hair and Worry Over Your Appearance. How to Restore Your Hair and Have Beautiful, Soft Tresses.

Most men and women utterly neglect their hair and yet it is more exposed to dust, dirt and grit than our face or hands. But the hair covers it up until we are suddenly shocked at the appearance of our hair with dandruff, thin or falling hair, lack of luster and grayness. To have beautiful, soft lustrous hair all the time you must obey the natural laws of hair and scalp cleanliness and give it regular attention. Brush your hair regularly every night. Shampoo your hair thoroughly with Q-Ban (pronounced Ku-Ban) liquid shampoo two times a week. Do not use ordinary soap shampoo. Your hair secretes an oil when mixed with ordinary shampoo, causes your hair to crack and get brittle. But Q-Ban Liquid Shampoo has a base of coconut oil and is already prepared in the right proportions. Q-Ban Liquid Shampoo makes regular billows of foaming lather that dries quickly, cleanses the scalp and hair of all dirt and grit, leaving your hair soft and fluffy. After shampooing apply a little Q-Ban Hair Tonic. This tonic supplies the hair cells with the nourishment needed. It also kills all the dandruff germs. Follow above simple directions and a beautiful head of healthy hair is yours for a life-time. Q-Ban Liquid Shampoo and Q-Ban Hair Tonic will cause your brittle, thin or falling hair to grow thick again, with the lustre, snap and life of a young girl's hair. Your scalp will be healthy and clean. But be careful to get "Q-Ban," as that is the name of the only safe shampoo and tonic made. It does not cost much and you can easily use it in the privacy of your home. Sold by all druggists and toilet counters.—Albany Drug Co., Albany, Ala.—Advertisement.

Tells How Ziron Iron Tonic Helped His Daughter After Operation for Appendicitis.

AFTER any serious illness, the first thing you notice when you begin to get around is your lack of strength and energy—a tired, weak feeling.

The sooner you get your strength back the better. The thing to do is to eat plenty of good, nourishing food, get all the fresh air you can, exercise conservatively, and take Ziron Iron Tonic three times a day.

Your doctor will tell you this is sound advice, and urge you to follow it.

STANDARD THE WORLD NEEDS

High Moral Example Set by Robert Louis Stevenson Well Worth Living Up To.

Robert Louis Stevenson, refusing to take all that was offered him for a poem he did not think his best, wrote: "I do not live much to God and honor, but I will not willfully turn my back on both."

In the modest words lies deep the only standard by which a man can hope to satisfy himself with his life. It is a standard the world today sorely needs. We hear of unrest and shall hear of it. Why not, with so many men and women trying to live up to a standard set by someone else? If they succeed, there is no happiness in it, for it has no sanction from their own hearts.

The man we count successful in material affairs and expect to find happy is never one who has reached a certain place. But when a man has set a mark for himself in possessions and has kept that mark in view until he reached it, we call him successful. It may have been a \$10,000 home; it may have been one million dollars. But it was his own goal.

It is not less true of his inner life. We do not expect much of a man who has no standard for himself of right and wrong. And he cannot claim any right to contentment. If his only moral standard is the law, he earns only the minimum of satisfaction. Stevenson, refusing money which he needed because he thought he had not earned it, is a thousand times more to be envied than the man who takes a hundred or a million dollars he has not earned, because no law will punish him.—Milwaukee Journal.

A Kind Provision. Apparently the men who talk all the time never grow dumb, but those who are compelled to listen all the time have a tendency to deafness. Nature protects her children ultimately.—Houston Post.

TO EXTERMINATE CROP PESTS

Scientist Plans to Use Flame Throwers and Other Methods to Destroy Enemies.

In 1918 and 1919 the territory near the delta of the Rhone suffered greatly from swarms of the Morocco cricket, which multiplied so excessively as to be of great injury to the crops. At a recent meeting of the French Academy of Sciences a report was made by M. Vayssiere on the use of the "flame throwers," employed in the war for throwing liquid fire, to exterminate these pests. With an apparatus holding about twelve liters of petroleum an extent of 200 square meters can be so thoroughly swept with flames as to kill all the insects. Asphyxiating gases had but little effect but applications of powdered chloroform were much more satisfactory. While vegetation suffered somewhat the effects were only temporary. Lastly, M. Vayssiere made use of poisoned bait with a basis of arsenic like that employed in Italy and in the United States and obtained good results. He proposes to utilize all three methods—first the flame throwers to exterminate the hordes of young larvae in all cases where their use does not involve danger of fire; secondly, chloroform powder where the flame throwers would be dangerous; and thirdly poisoned bait in irrigated meadows where no cattle are pastured.

Walk in Faith.

Have faith, then, oh you who suffer for the noble cause; apostles of a truth which the world of today comprehends not; warriors in the sacred fight whom it yet stigmatizes with the name of rebels. Tomorrow, perhaps, this world, now incredulous or indifferent, will bow down before you in holy enthusiasm. Tomorrow victory will bless the banner of your crusade. Walk in faith and fear not.—Mazzini.

SPRING FEVER

Following Colds, Grip or Flu, Thin, Watery or Poisoned Blood (By Dr. VALENTINE MOTT.)

At this time of year most people suffer from what we term "spring fever," because of a stagnant condition of the blood, because of the toxins (poisons) stored up within the body during the long winter. We eat too much meat, with little or no green vegetables.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the spring-time of the year, should try the refreshing tonic powers of a good alternative and blood purifier. Such a tonic as druggists have sold for fifty years, is Dr. Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form. Made without alcohol from wild roots and barks.

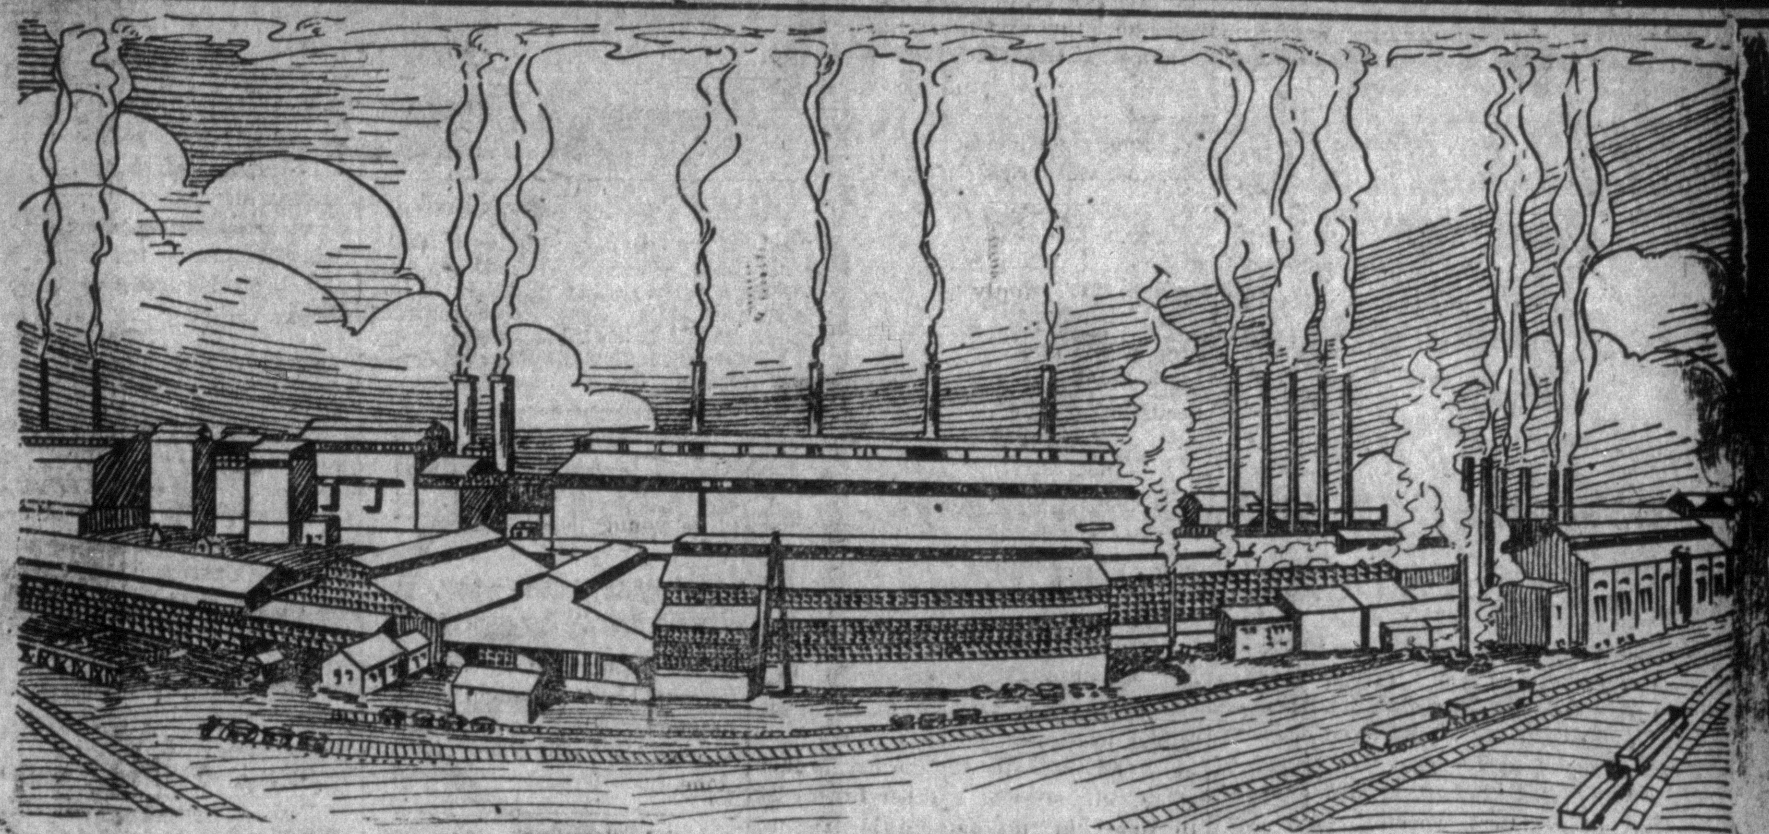

N. BIRMINGHAM, ALA.—"Dr. Pierce's Golden Medical Discovery is certainly a good medicine for deep-seated colds, and as a tonic I have found it to be all that could be desired. For the last forty-five years 'Golden Medical Discovery' and 'Pleasant Pellets' have been used in my home, for in my boyhood days, my mother used these remedies of Dr. Pierce's and no other medicines were ever used by her as long as she lived. She had none but the highest praise for them, and from my own experience with Dr. Pierce's Golden Medical Discovery for colds and the 'Pleasant Pellets' for biliousness and constipation, I know that these medicines deserve the highest praise that I can give."—ED. ERWIN, No. 2513 Twentieth Avenue.

Pentitentiary Farm's Success.

Included in the report of the governor of the Edmonton, Alberta (Canada), penitentiary to the superintendent of penitentiaries is an interesting paragraph dealing with the farm operations carried on at the penitentiary as well as its mining operations. Some 70 acres were under cultivation during the past year and were farmed with gratifying results. From this small acreage, after buying a tractor and stubble plow at a cost of \$1,314, "we show a net profit of \$4,191.17. From 9 1/4 acres of wheat we thrashed 45 bushels to the acre, and from 11 acres of potatoes we sold 3,500 bushels. Our oats yielded 85 bushels to the acre, and the amount of small vegetables was exceptionally good. Our intensive farming has been very profitable."

ENSLEY STEEL PLANT OF TENNESSEE COAL IRON & RAILROAD COMPANY

The Diversification of Service By a Power Producer

The illustration at the top shows the mammoth steel plant of the Tennessee Coal, Iron & Railroad Company at Ensley. That at the bottom is a graphite mill in the hills of Alabama, remote from the coal fields and the railroads. Both use hydro-electric power supplied by the Alabama Power Company.

The diversity of industrial operations in the field now covered by the Alabama Power Company, which at present includes more than half the state, creates a demand for the power supplied by this company which is not dependent upon conditions in any one industry. These facts have a material bearing on the desirability of

Alabama Power Company

First Mortgage Thirty Year 5% Gold Bonds of 1946

which we are now offering. These bonds are secured by direct first mortgage on all property now owned or hereafter acquired by the Alabama Power Company. The duplication value of this property is materially in excess of the total of first mortgage bonds outstanding. This is the first essential feature to be considered in analyzing the security back of these first mortgage bonds. Proper diversification of the industries served by the company is essential, however, to the continued use of such property for the purpose for which it was created. The company distributes power throughout northern Alabama, serving the great manufacturing and industrial territory centering around the widely known "Birmingham

district." It includes among its customers coal mines, ore mines, steel mills, manganese plants, cotton mills, brick plants, cement plants, foundries and machine shops, fertilizer plants, pumping plants, quarries, lime plants, graphite plants, public utilities and railroads. This gives to the company a constant demand for power and a demand which should not be influenced materially by adverse conditions in any single class of industry. The growing character of the communities served, gives assurance of the constant increase in the demand for power. These facts taken together evidence the strong position of the first mortgage bonds of the Alabama Power Company as permanent investments.

MISS ROLINE TEASLEY COMPLIMENTED

The home of Mr. and Mrs. L. H. Bullard was the happy gathering place last evening of most congenial friends when Misses Mary Harvey and John Bullard entertained at six o'clock dinner for Miss Roline Teasley, a girl graduate.

The satin damask table, centered with a graceful bowl of roses held places for six. The young hostesses presented their honor guest with a lovely white ivory toilet set. The guest list included Misses Roline Teasley, Erin Draper, Amanda Pride, Inez Teasley, Mary Harvey and John Bullard.

SENIOR DANCE

Last evening the Juniors entertained the Seniors at a dance at the residence of Mr. and Mrs. T. V. Harrison on Sherman street.

About sixty girls and boys with Misses Troy, Dudley, Newman, Pritchard, Harrison and Mr. Templeton as chaperones enjoyed the hospitality of these young hosts. Fruit punch and pink and white ices were served throughout the evening.

Mrs. Sam McDowry and Mrs. C. F. Hodges spent the day with Mrs. R. M. Owens of Ninth Street south.

Friends here are in receipt of post cards from Mr. and Mrs. W. B. Edmundson, who are now touring Europe, mailed at San Remo, Italy, a picturesque city where the allies supreme council recently was in session.

MARGARET ROMAINE IN ALBANY, MAY 26

Many interesting things are being said of Miss Margaret Romaine, the Prima Donna of the Metropolitan Opera Company, who is to make her first appearance in Albany, May 26. It is said that her excellent voice, and matchless personality and beauty, made her the queen of all the concert artists appearing in Birmingham this season. Her emphatic success at the Newark Festival last week resulted in her immediate engagement for the closing evening of the Evanston Festival at Chicago on May 29, after her appearance in Albany.

Miss Romaine is an American, and sings American songs in the American way. Her appearance here is an event all are looking forward to with much interest.

Mrs. H. M. Binford, who has been quite ill for ten days, is improved in health.

Mrs. Andrew McElory and Mrs. S. B. White left this morning for Chattanooga to be the guests of friends for several days.

Mrs. F. T. Webster and children will spend the day in Gurley tomorrow.

Mrs. C. M. Kortrecht is entertaining at tea this afternoon in honor of her house guests, Mrs. H. A. Skeggs, of Birmingham; Mrs. A. H. Kortrecht of Memphis, and Mrs. Geo. Hillman, of Nashville.

Mrs. Anna Frieron, of Athens, and Mrs. Robert Childress, of New York, were visitors in the city yesterday.

Miss Margaret Johnson, of Florence, was the overnight visitor last night in the home of Mrs. H. N. Binford enroute to Montgomery.

Miss Laura Lake, of Indianapolis, who has spent the winter in Fla., is visiting Miss Nannie Maulsby and Mrs. Frank St. Clair, of 3rd Ave. South.

Mr. and Mrs. Elmer Transue and daughter, Miss Louise, of Copping, N. Y., are visiting his mother, Mrs. Elizabeth C. Transue.

Mrs. William Harvey, who has been the guest of Mrs. E. T. Calvin, leaves on Monday for Norfolk, Va.

THURSDAY CLUB

MRS. LACY, HOSTESS

Mrs. Lacy entertained the Thursday card club yesterday at her home on Ferry street.

The guests included Mrs. B. P. Wallace, Mrs. H. Miller, Mrs. C. D. Elliott and Mrs. J. W. Jones. Mrs. Lacy made top score for the club, and Mrs. B. P. Wallace was awarded the guest prize.

Mrs. J. D. Jeffries will entertain at cards Saturday afternoon at 2:30 o'clock in honor of Mrs. James Y. Hamill.

Mrs. Theo. Z. Bucheit proved a charming hostess yesterday afternoon when she entertained at progressive rook.

The beautiful apartments were artistically decorated in garden roses and ferns. On entering, fruit frappe was served by the hostess to Mesdames, O. W. Stinson, F. L. Goodwin, J. B. Schimmel, C. A. Worthington, T. M. Faust, F. E. Taylor, D. Gibson, H. Mullen, K. Jones, R. D. Johnston and B. A. Turner.

After the game, played at three tables, delicious ices were served.

Mayor James A. Nelson is in Birmingham on business.

Some Evidence of Crime.

Where victim of a homicide was shot both through the head and body, his ears severed, one eye gouged out, his head and face frightfully mangled, his body dragged 40 yards down a bank, leaving a trail of blood, and there abandoned in the night, court's remark as to importance of case to community, wealth, and to defendant, and that it would certainly appear that some one was guilty of a most heinous crime, was not improper.—Commonwealth vs. Bednorski, Pa., 107 AU. 606.

Mixon's Oil Letter

(A series of letters being written by a man who is thoroughly familiar with oil fields, thoroughly familiar with oil investments and who knows the technical side of the oil business. He is acquainted with over eleven hundred oil companies operating in the Texas fields.)

Building permits issued by the five stories. There are at least thirty new buildings being erected at this time, and many business houses have been opened in dilapidated places away from the main part of the city. The bank clearings are now from one hundred and eight to one hundred and ten million dollars per month. Unable to get homes in Fort Worth scores of persons are living in Dallas and other towns on the modern inter-urban railroad, it is said. A leading hotel of Fort Worth refuses to permit a guest to remain longer than ten days, although they may stay and pay double the regular rate. The hotels are unable to accommodate all their guests.

Ranger, near the oil fields, has a population of 25,000 people, as compared with 250 people twenty-nine months ago, before the discovery of oil. Ranger also has fine office buildings and paved streets. Desdemona has 10,000 people, and 28 months ago was only a wide place in the road.

Fit Made of the Unfit--This Mineral Water Rebuilds Quickly

Being nature-made products, mineral waters are accepted readily by the system when in a run-down condition. "Go to the springs for a month," is common advice among doctors.

A wonderful, strength-giving water is now sold by your nearest druggist. This water is called Sul-Ferro-Sol and thus the Spring is brought to you.

Sul-Ferro-Sol is rich with Iron,

Sulphur and Potash—the elements that create healthful appetites, expel impurities from the blood and thereby restore both color and energy.

Sul-Ferro-Sol is most highly recommended as a tonic.

FARMERS "BLUE" OVER OUTLOOK ON THE YEAR'S CROPS

FALKVILLE, Ala., May 14.—Special—A severe electrical and thunder storm visited this section last night. The heavens were lighted in every direction with bolts of lightning, followed by detonating thunder. A

heavy wind followed in the wake of this electrical display blowing down fencing and timber. A deluge of rain also followed. The farmers are justly getting in the "blues" over the crop prospect. An unprecedented thing will occur this season, the hay crop will be ready to harvest before the cotton crop is planted. Hay is now a very scarce item there being such a demand for it locally that all the supply has been exhausted. Some meadows and alfalfa fields are now ready to harvest. A little upland corn has been seeded but so far the bottoms have not been touched.

The people of this town and com-

munity are justly proud over the phenomenal race Andrew G. Patterson made for the office of president of the Public Service Commission. Mr. Patterson was born and reared here, and spent his early manhood days in the mercantile business here being associated with his father in the conduct of the business. Later he moved to Albany, where was organized the Patterson Mercantile Co., he being associated in this business with his cousin, C. D. Patterson. His friends predict that he will fill this state office with much credit to himself and the state, and that he will bring to the office a business administration, which is one of his hobbies. Mr. Patterson for several years has taken a lively interest in state and county politics, and is very active and efficient wherever he essays to take a hand.

Dr. J. B. Elliott, of Tuscaloosa, and for the past two years in the service of the government with headquarters at New Orleans, La., has arrived here and will practice medicine at this place. Prior to his call into the government service he had several years experience as a general practitioner. His family who are still in Tuscaloosa where the children are in school, will follow him here soon. By the citizenship generally he is being given a cordial welcome, and the coming of him and his estimable family to this town will add to the social, civic and professional life of the town.

The meeting at the Methodist church, which closed last Sunday night, was rewarded with seventeen additions to the church. The services were marked by a deep religious fervor, and the church was greatly strengthened spiritually, and a genuine old time religious feeling offset all.

HUNTSVILLE MAN LOST SIX WEEKS FROM HIS WORK

Before he found anything to relieve his constipation, sluggish liver, gas in the stomach, and nervousness

IS WORKING NOW

Since taking Dreco, the new root and herb juice remedy, he seems like his old-time self

"I had been off from my work for six weeks taking medicine all the time, but couldn't get right it seemed," declared Mr. J. H. Fullington, of 104 Green St., Huntsville, Ala. He has lived here all his life, and is a well known citizen and highly esteemed.

"My stomach gave me a lot of trouble, filling up with gas, grumbling, often griped me, and I was badly constipated. I'm sure I was very bilious, for I'd see spots floating before my eyes, get dizzy and almost fall sometimes. I got extremely nervous; head would ache and had no desire for food at all. Believe I could have gone a week without wanting to eat.

"Everyone was praising Dreco so highly, I bought a bottle, and I'm free to say it is grand medicine. It went right to the bottom of my troubles, cleaned out my system very pleasantly, gave me a good appetite; got my stomach in fine order; stopped the dizzy headaches, and made me feel better than I have in many a day. I gladly offer my testimonial for publication, for it may lead someone else to health."

Dreco is composed of the juices and extracts of many different roots, herbs, barks and berries, which act on the stomach, liver, kidneys, bowels, and purify the blood. It relieves constipation; prevents gas forming in the stomach; increases the appetite, insures sound refreshing sleep, banishes catarrh of the head and takes the pain out of rheumatic joints.

Dreco is now sold by all good druggists throughout the country and is highly recommended in Albany by Albany Drug Co.; in Decatur by Hilda Drug Co.—Advertisement.

Regular Habits Produce a Beautiful Complexion

Daily elimination rids the system of poisons. Women should realize that!

MANY women complain daily of their complexion, of their headaches and general ill health, little realizing that the trouble is constipation. Women, too, are much more subject to such congestion than men, and much more careless of it. The result is seen in lusterless, weary eyes, in sallow, pinchy complexion, in lassitude, bad breath, and in that word so often used, "indisposed."

At the first sign of these symptoms the wise woman will take a laxative, and will see that the young girl and others in her care do likewise. Dr. Caldwell's Syrup Pepsin is the favorite with thousands of women because it is mild and gentle in its action and in the end trains the stomach and bowel muscles to do their work naturally without the aid of medicine.

This combination of simple laxative herbs with pepsin, which can be bought at any drug store, is also a very sterling first-aid in colds, fevers and other sudden ills

that make it advisable to always have a bottle in the home. It is free from narcotics and safe for the tiniest baby.

In spite of the fact that Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in the world, there being over 6 million bottles sold each year, many who need its benefits have not yet used it. If you have not, send your name and address for a free trial bottle to Dr. W. B. Caldwell, 511 Washington St., Monticello, Illinois.

100 lbs. of Purina Cow Chow contains 24 lbs. of protein, 85% of which is digestible and convertible into blood, tissue and milk. It is pure feed that perfectly

Balances home-grown roughage and silage.

It saves you the trouble of mixing and balancing your own ration. It is more uniform than any home-mixed feed because the ingredients are laboratory tested to a fixed standard of quality, and measured and mixed by machinery. The high percentage of protein insures maximum milk flow. It will make the average cow on the average ration produce

3 lbs. more milk per day, at an additional feed cost of about 3c

SHOE SALESMAN TELLS ABOUT GREAT CHANGE

Popular Nashville Man Delighted and was in a badly run-down condition. With Results He Obtained From Pomeroy's Puratone. D. O. Gupien, well known salesman employed by the Newark Shoe Co., is another Nashville man who has obtained wonderful results from Pomeroy's Puratone. In a statement made the other day Mr. Gupien said: "I would not take all the money in Nashville for the good this medicine has done for me. I have taken three bottles without any bad after effects. My sleep is sound and restful and I feel merrier. I am recommending it to all my friends, and believe in its doing that I am helping them. I suffered with stomach trouble."

Don't Let Catarrh Drag You into Consumption

Avoid Its Dangerous Stage. There is a more serious stage of Catarrh than the annoyance caused by the stopping-up of air passages, and the hawking and spitting and other distasteful features. The real danger comes from the tendency of the disease to continue its course downward until the lungs become affected, and then dreaded consumption is on your path. Your own experience has taught you that the disease cannot be cured by sprays, inhalers, jellies and other local applications. S. S. S. has proven a most satisfactory remedy for Catarrh because it goes direct to its source, and tends to remove the germs of the disease from the blood. Get a bottle from your druggist today, and begin the only logical treatment that gives real results. For free medical advice write to Medi-Path, 104 Swift Laboratory, Atlanta, Ga.

FOURTEEN POUNDS OF BLOOD

Every Healthy Adult Should Have a Definite Quantity of Rich, Red Blood Coursing Through Their Veins.

Pepto-Mangan Makes Red Blood Builds up Men and Women Who Lack Energy.

A healthy, full-grown person has in the neighborhood of fourteen pounds of blood in his or her body. The weight of the blood varies with different people, but it should not vary with the individual. For instance, if the normal weight of your blood is twelve pounds, and it falls off a pound in weight, it is one of the most precious pounds in the world and should be immediately regained.

To turn weak, water blood into live, red, health-building blood, take Gude's Pepto-Mangan.

Gude's Pepto-Mangan is an absolutely dependable red-blood builder in all conditions of lowered vitality not due to serious disease of the vital organs. It improves the appetite, imparts color to the cheeks, and creates new hope and ambition in those who have become pale, weak, and listless. Physicians recommend Gude's Pepto-Mangan. When you order, be sure the word "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. Furnished in both liquid and tablet form. For sale by all druggists.—Advertisement.

HART'S NEW PICTURE

IAS STRONG THEME
"Square Deal Sanderson" is Finest Western Photoplay

In "Square Deal Sanderson," Wm S. Hart's newest Artercraft picture which will be shown at the Princess theatre today, will be found one of the strongest stories ever employed for a scenario. It was written by Chas. A. Seltzer and pictured by Lambert Hillyer.

It tells about a Westerner who sees a horse thief shot in the back, who at the same time kills his assailant. A letter tells Square Deal Sanderson that the thief is a brother of Mary Bransford, owner of a ranch in New Mexico who writes that she is beset by a man who is trying to steal her property. Square Deal goes to her rescue and poses as her brother, whom she had not seen from childhood. He saves her, gets into and out of many bad scrapes, but finally bests the villain and his band and wins the girl as his reward.

Ann Little plays the girl and of course Bill Hart is the westerner whose "handle" typifies his character. This picture is said to be one of Bill Hart's best photoplays, which in the parlance of the day may be said to be "going some."

Mental Atmosphere.
Take time to study your own tastes your own desires and find out what you really react to pleasurably, and why; then by the simple process of selection and elimination you can gradually evolve the right atmosphere for your present condition. It will change as your mental life changes. But do not try to impose the results of your experiments on someone else, for what might rest and inspire you, with your individual interests and ambitions, might irritate someone else beyond endurance. Because of the large part that previous association plays in the interpretation of any sense stimulus, in any attempt to create a "mental atmosphere" with natural objects, each individual becomes a law unto himself. "Know thyself."—Exchange.

All That Was Worth Seeing.
Whistler's amusing personal conceit is illustrated in the following story: Meeting a friend entering a private view at the Grosvenor gallery, the artist took him up to a full-length portrait he was exhibiting of Lady Archibald Campbell. After the friend had expressed his appreciation of the beautiful work, he asked Whistler if there were any other pictures he would advise him to look at. "Other pictures?" said the artist in a tone of horror, "other pictures! There are no other pictures. You are through!"

Immensity of Oceans.
So vast are the contents of the oceans that it would take 2,000,000 years for all the sea water in the world to flow over Niagara.

Acorns as Human Food.
The Indians of the Pacific coast region, from northern California to Mexico, eat acorns in considerable quantities. Dried and pounded they are made into a sort of mush, and also into bread. Acorn meal is usually bleached to free it from tannin and whatever other bitter principles it contains. In certain parts of Italy acorn meal, with the addition of two-thirds ground grain, is made into bread.

Marvelous Toy Vitrin.
Perfect in every detail, and so small it will lie within a space covered by two-half dollars told side by side. London now boasts of having the smallest vitrin in the world. It was made by the well-known violinist, B. Vanderhulst, and is exquisitely constructed as to scale. The exact measurements are: Vitrin body, 1.11-16 inches; vitrin, over all, 2 1/2 inches; bow, 3.9-10 inches.

INVENTIVE GENIUS MAKES CALOMEL DELIGHTFUL

Calomel, the Most Valuable of Drugs. Now Purified From Its Nausea and Danger—"Calotabs" the New Name

The medicinal virtues of calomel are in no way connected with its nauseating and dangerous qualities, as is proven by the fact that the new calomel tablet, called Calotabs, is free from objectionable effects yet retains all of the liver-cleansing and system-purifying qualities of the old-style calomel. For biliousness, headaches, constipation and indigestion, and wherever calomel is essential, the new de-nauseated calomel tablet is a practically perfect laxative.

To inspire public confidence in this new discovery the manufacturers have authorized druggists everywhere to refund the price if the customer is not "perfectly delighted" with Calotabs. Sold only in original packages, sealed. Price thirty-five cents. One tablet at bed-time, with a swallow of water. No taste, no nausea, no griping, no salts. You wake up in the morning with a clean liver, feeling fine, and a hearty appetite for breakfast. Eat what you please, no danger.—Advertisement.
